

Coating Schedule Chart

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
Zirconium Nitride (ZrN)	MONDAY am				
nACo				THURSDAY am	
nACRo					FRIDAY am

Standard AlTiN coating is run at ACS every day of the week (M-F).

TiN and TiCN are processed M-F depending on volume of tools. The average has been 2-3 days.

ACS needs a total of 6.5 hours in our shop to process an order for the complete cleaning and coating of any product.

This does not include packing and shipping time. We cannot rush the coating chamber time! ACS will do everything in its power to accommodate any emergency orders, same-day delivery, drop-shipment, and specialty coatings.

Please call ACS, (585) 247-3970, to help you meet any of the above needs or concerns regarding expedited orders. All expedited orders will be subject to an emergency charge.
